

Irish Draught All Ireland Performance Championship very kindly sponsored by Horse Sport Ireland

Aims:

- To demonstrate the versatility, ability, temperament and suitability of the Irish Draught Horse for both amateur and professional riders and importantly as an all-round family horse.
- The Irish Draught is the foundation of the Irish Sport Horse and it is envisaged that this competition will continue to give a new impetus to Irish Draught breeding and encourage farmers and breeders to produce quality young Irish Draught stock which should make Irish Draught horses more attractive to the market and especially the export market.
- To increase its market value for people to continue to breed it as at current day prices its breeding is becoming unsustainable. The only way it will become attractive is by running competitions such as the proposed one which demonstrates its ride ability and capability competently in many equestrian activities.
